JOB DESCRIPTION

POSITION TITLE: SF and M&A
BUSINESS UNIT: Mexico
LOCATION: Mexico
REPORTS TO: Head of SF and M&A

OVERVIEW:

Leading global operator specialising in the complete management of solar and wind assets for electricity generation is looking for an SF and M&A.

RESPONSIBILITIES:

As part of the SF and M&A México this position will be accountable for the following tasks:

- Financial modelling activities addressing all commercial, technical and financial parameters of the projects for debt financing structuring, project valuation (both greenfield or acquisition of projects in different stages of development), preparation of tenders, achievement of internal investment approvals, financial close processes and asset sale processes; among others.
- Provide support in all activities associated with debt and equity investment processes (due diligence, documentation review, etc...)
- Drafting of presentations and materials for a diversity of internal and external stakeholders and purposes (i.e. project updates, investment approvals, market analysis, etc...)
- Support the communication process with internal stakeholders and teams both in Spain and other FRV offices worldwide.
- Other ad-hoc duties.

QUALIFICATION AND EXPERTISE:

- Bachelor's Degree required, ideally in Finance or other quantitative or technical field.
- Advanced EXCEL skills. Medium knowledge of EXCEL VBA coding.
- Very strong analytical skills. Demonstrable financial modelling experience, including building models from scratch (financial modelling test will be performed if needed)
- Around 2 to 3 years' experience in corporate finance, financial advisory or debt structuring practices.
- Familiarity with structured finance and M&A execution processes, especially non-recourse financing structures.
- English and Spanish language proficiency (both written and spoken)
