

JOB DESCRIPTION

POSITION TITLE: Corporate planning.

BUSINESS UNIT: Risk Management & Corporate Planning

LOCATION: Madrid

REPORTS TO: Head of Corporate Planning

OVERVIEW:

Leading global operator specialised in the complete management of solar, wind and storage assets for the generation of electricity is looking for a Corporate Planning Manager.

RESPONSIBILITIES:

As part of the Risk Management & Corporate Planning team, within the Finance department, this position will be accountable for the following tasks:

- Financial model preparation and building for the aim of guiding the Group's Business Plan in the medium and long term.
- Model management: control, analysis, sensitivities, quarterly / bi-annual updates and monitoring...
- Accounting knowledge for financial consolidation of projects.
- Analysis of potential investments and assessment of their impact on the Group's strategy.
- Conduct internal analysis and control over the company's asset portfolio.
- Conduct financial valuation of individual projects and sum-of-the-parts at a regional / group level.
- Financial analysis and assessment, due diligences, engage in investment / divestment transactions...
- Identification and analysis of the key risks of the Group and implementation of the corresponding mitigation strategies.
- Prepare comprehensive documentation (such as presentations, memorandums...) for internal / external reporting.
- Analysis, control and monitoring of funding alternatives (bank financing, capital markets, etc.), of guarantees, hedging strategies, accounting/tax implications...
- Other ad-hoc duties.

QUALIFICATION AND EXPERTISE:

- Bachelor's degree in Business Administration, Economics, Finance and/or STEM. Master's degree will be considered a plus.
- 3-5 years of experience (in big four, consultancy firms, private equity or investment banking) in the areas of Corporate Finance, Project Finance, Investment Management, Strategic Consulting...
- Strong working knowledge of Microsoft Office tools (Power Point, Power BI, Power Query...) and specially an excellent level of expertise in Excel and VBA, being able to build, structure, control and manage a complex financial model.
- Familiar with the financial concepts of investment, profitability, etc., which are usually used in financial modelling and valuation.
- Knowledge of the electricity sector and previous experience within renewable energy, power, infrastructure, or construction sectors will also be a plus.
- FMVA would be highly valued.
- English language proficiency (written and spoken).
- Willingness to travel abroad sporadically.

SOFT SKILLS:

- Detail oriented.
- Proactive.
- Teamwork.
- Strong analytical.
