

The future happens here

## **JOB DESCRIPTION**

**POSITION TITLE:** Energy Market Analyst  
**BUSINESS UNIT:** Italy  
**LOCATION:** Rome  
**REPORTS TO:** Managing Director, Italy

### **OVERVIEW:**

Leading global operator specialized in the complete management of solar, storage and wind assets for the generation of electricity is looking for an Energy Market Analyst for its Italy Business Unit.

### **RESPONSIBILITIES:**

As part of the Italian Business Unit and reporting to the Managing Director, this position will be accountable for the following tasks:

- Market analysis and modelling: monitor the regulatory and electricity market environment within the country
- Analysis of technology evolution: research, posted on new regulation and market/cost evolution to assess new opportunities
- Analyze, prepare and bid FRV development assets to energy contract auctions (public or private offtakers)
- Support the negotiation of final energy contracts and RtM service agreements

### **QUALIFICATION AND EXPERTISE:**

- Bachelor's degree in Engineering, Business Administration or Economics
- A post-graduate degree at Master's level or equivalent would be an advantage and a multidisciplinary background an asset
- +4 years of experience in strategy or management consulting with focus in the Energy & Utilities industry
- Good knowledge of the policies and regulatory aspects of the energy sector
- High proficiency with Excel and experience with databases
- Italian native and proficiency in English is mandatory

### **SOFT SKILLS:**

- Strong analytical skills
- Intellectual curiosity and desire to learn new skills
- Team spirit and proactive
- Excellent communicator
- Creative and open-minded individual with a good sense of humor
